

Installation: 5 kV DO Breakers - Unit Electrical Engrg., OK Falls, Canada

Tavrida Electric supplied four ISMD5 HD draw-out circuit breakers for this switchgear line up, which was destined for a hospital in British Columbia. They were delivered in 1Q2010.

These circuit breakers are rated 5 kV, 1200 amps, 31.5 kA interrupting, 60 kV BIL. They can perform 30,000 C-O operations at rated current, 50 full short circuit operations and are virtually maintenance free for 25 years.

The Tavrida Electric Shell Type breaker is a cost effective, compact and an extremely reliable product. It is backed by a full 5 year warranty, which also applies to the associated Tavrida Electric control module.
