

Installation: 5 kV DO Breakers - Unit Electrical Engr., OK Falls, Canada

This ISMD5 draw-out breaker was supplied for a hospital project in British Columbia. A quantity of four breakers were supplied in 1Q2010.

These circuit breakers are rated 5kV, 1200 amps, 31.5 kA interrupting, 95 kV BIL. They can perform 30,000 C-O operations at rated current, 100 full short circuit operations and are virtually maintenance free for 25 years.

The Tavrída Electric Shell Type breaker is a cost effective, compact and an extremely reliable solution. It is backed by a full 5 year warranty, as well as for the Tavrída Electric control module.
