

Installation: 15.5 kV Recloser - City of Medicine Hat, Alberta, Canada.

This Tavrida Electric OSM15.5 pole mounted recloser was supplied complete with a Tavrida Electric RC-05E control module. They were delivered during 3Q2009.

It is rated 15.5 kV, 630 amps, 16 kA interrupting, 110 kV BIL and weighs 139 lbs (63 kg).

Tavrida Electric OSM15.5 reclosers can perform 30,000 C-O operations at rated current, 200 full short circuit operations and is virtually maintenance free for 25 years. All OSM reclosers can operate in ambient temperatures from -60 degs C to +55 degs C. The selection of materials and paint finish renders it suitable for use in very saline environments (supported by ESKOM's KIPTS Test Report). This also applies to all OSM reclosers.

The Tavrida Electric recloser is a cost effective, compact and reliable solution that requires virtually no maintenance and is supported by a 5 year warranty for both the recloser and control module.
